

SONGZ product specification & drawings for JLE-XIC-EF

Cooling Capacity(Outlet water temperature 15 °C)		8kW
PTC Heating Capacity		0~14 kW (Optional according to customer requirements)
Circulating Water Flow Volume		32 L/min(Head >10m)
Roof	Dimension	1370×1030×280(mm)
	Weight	65 kg
	Air Flow Volume Evaporator (Blower Quantity)	4000 m ³ /h (2)
	Shell material	High strength fiber glass
Refrigerant	Type	R134a
Cooling Power Consumption		3.5 kw
Heating Power Consumption		0~14 kw

Instructions:

1. Songz reserves the rights to update products without notice in advance;
2. Kindly contact SONGZ sales manager to obtain the latest specification, drawings to ensure the accuracy;
3. Different working conditions leads to different cooling capacity;
4. Many factors effecting the cooling effect, such as vehicle sealing, vehicle thermal insulation, etc.
